Academic Expectations

Mistakes
Are The
Stepping Stones
To Learning!

- Children will always try their best.
- Mistakes are celebrated!
- Learning is constantly reviewed to help embed it into their long-term memory.
- Children should take pride in the presentation of their work (cursive handwriting).
- Regular reviews.

'Review it or lose it'
'Every second counts'

Knowledge Organisers

- Key facts and information for basic knowledge and understanding of a topic.
- Research on memory shows frequent revision of knowledge helps us to remember better and for longer.

Sketch it
 Draw pictures to represent each of the facts or dates. It could be a simple drawing or something that reminds you of the answer.

Record it
 Record yourself on your phone or tablet reading out the information. These can be listened to as many times as you want!

Post-its
 Using a pack of post-it notes, write out as many of the key words or dates as you can remember in only 1 minute!

Back to front
 Write down the answers and then write out what questions the teacher may ask to get those answers.

Read aloud
 Simply speak the facts and dates out loud as you're reading the knowledge organiser. Then act out the facts whilst you are reading them. It really helps you to remember.

Flash cards
 Write the key word or date on one side and the explanation on the other. Test your memory by asking someone to quiz you on either side.

Hide & Seek
 Read through your knowledge organiser, put it down and try write out as much as you can remember. Then keep adding to it until it is full.

Teach it!
 Teach someone your key facts and get them to test you, or even test them!

RSHE

In September 2020, the Government introduced a statutory Relationships and Health Curriculum into all primary and secondary schools. This includes elements of sex education that are age-appropriate. CTK teaches this subject using a programme called 'Life To the Full' by TenTen which has been approved by Nottingham Diocese and is in line with the teachings of the Catholic Church.
